

MUHAMMET TAHA NUR

Front-End Developer

If you want, you can browse my portfolio directly. I developed with React.js but mobile responsive not ready now. [myportfoliolink](#)
I'm working to be a fully informed front-end developer and I'm keeping a close eye on the agenda. I learned HTML5, CSS, JavaScript, Node.js and React.js for this. You can access the projects I developed with these languages on GitHub. I learned WordPress. I have worked on many themes and plugins. I learned PostgreSQL in a database course at university. I added MySQL over them. I am looking for a job to help my family as an earthquake survivor.

EXPERIENCE

05/2019-09/2019 Web Developer Intern
